

ROCHESTER MIDLAND CORPORATION ACQUIRES SOLID BLEND WATER MANAGEMENT SOLUTIONS

Rochester, New York, March 10, 2026 – Rochester Midland Corporation (“Rochester Midland”), a leading provider of route-based, technical services and specialty chemical products across water treatment, food safety and other verticals, today announced that it has acquired Solid Blend Technologies, Inc. (“Solid Blend”), a water management and environmental solutions provider based in Dayton, OH.

Founded in 1999, Solid Blend utilizes innovative solid chemistry solutions to treat scale, corrosion and microbiological concerns in cooling towers, boilers and closed loop systems. Solid Blend provides its mission-critical water safety services to healthcare facilities, federal government agencies and assisted living communities, ensuring regulatory compliance through customized water management programs.

Jordan Campbell, Sr. Managing Director of Peak Rock Capital, said, “The acquisition of Solid Blend is highly complementary to Rochester Midland and expands its presence across attractive end markets like healthcare. This partnership exemplifies Rochester Midland’s relentless focus on growth.”

Jim White, CEO of Rochester Midland, commented, “We are elated to welcome Solid Blend to the Rochester Midland team. This acquisition is a perfect fit for our U.S. water business as it grows our presence in the Midwest.”

David Alter, Managing Director of Peak Rock Capital, added, “Solid Blend is a unique asset with its highly differentiated solid chemistry solutions. Rochester Midland continues to seek additional partnership opportunities that will add value-added capabilities.”
